Towner, Colorado

Dear Professor Deister,

I have finally received a letter from all the Towner High graduates of 1958.

Delmas Beaman is still going to college but plans to graduate next year. While waiting for another date in a dorm, Delmas met a pretty little red headed coed whom he married soon afterward. She is working to support their family and send Delmas through college. Delmas is trying to make a Space Satellite and would have it nearly completed about a year ago except for a minor explosion demolishing his workshop. Delmas is kept busy firing up his little red headed green eyed Satellites.

Merle Crockett as you have probably suspected has married his one and only, the former Linda Buck of Eads, Colorado. He and Linda have four children. Merle is now employed as a ditch digger, but is just waiting for the opportunity to start his own chicken farm, and make his first million.

Jerry Hammersmith married the former Mildred Crockett. Jerry has four children and is working for the Sky-Hook Corporation in New York City. Jerry is saving his energy for the time when he can retire on social security and the old age pension, if he doesn't go broke first, keeping Mildred and the kids in spending money.

Richard Humburg, our only millionaire is married and has three little girls. He is living in Washington D.C., and is one of the top scientists of the United States, and has recently been sent on a tour of the Russians Missile Program. Richard has purchased two new Cadillac, a pink one for his wife, and an orange one for himself.

I finally finished Lamar Junior College, after taking each class twice, and married a farmer near Towner. I almost became an old maid, but just when I had given up hope, I met an eligible bachelor and landed him before he had time to think the deal over. I am kept busy chasing my six kids and the chickens.

All the seniors of 1958, from Towner seem to be doing fine, and going strong, and I hope your family is doing the same.

Sincerely,
Karen (Reinert) Barnes
We, the senior class of 1957-58, of Towner High School, being of sound bodies and weak minds, having reached our Senior year of High School in spite of every teacher we had doing their best to prevent this clamity, do hereby publish and declare this as our last will and testament, to those here­by stated we will:

I, Karen Jean Reinert, do hereby will and bequeath my ability to start fights, pull hair, and read comic books in class to all the future Juniors and Seniors of Towner. My good grades to the Sophomore class, my musical ability to anyone who wants it, and my temper to those who least need it.

I, Delmas Ray Beaman, will my red hair to James Reinert, my careful driving to Charles Humburg, my ability to keep my feet on the floor while playing basketball to James Huddleston, and my good nature to everyone.

I, Merle LeRoy Crockett, will my sideburns to Larry Herren, so he will look more like Elvis, my height to Mike Huddleston, my ability to pay back borrowed money to Charles Humburg.

I, Gerald Dean Hammersmith, will my shop ability to Nelson Grayson, ability to stay up until 3 a.m. to Larry Tuttle, and ability to find a girl friend to all boys who can't find one, and my curly hair to Mildred Crockett.

I, Edwin Richard Humburg, will my ability to make the teachers disgusted to James Huddleston, my ability to talk a lot to Jane Quinby, my boldness in basketball to Larry Herren, and my mechanical ability to Mr. Davis.

All the senior boys will their basketball suits to the poor kids next year and their ability to drive carefully to the future kids from Towner.

The entire senior class will their ability to take 3 trips in High School to anybody who can get away with it!!!

Carnival

October 31, Halloween night, was the setting for an all-school carnival, at which was chosen a KING and QUEEN.

The honored girl, at this occasion, was NELDA RUTH HAWKINS, a Junior in High School this year. Nelda was chosen by a small majority of votes, by the entire community. Nelda had the privilege of being crowned that evening at 12:00 p.m., by Mr. Deister, Superintendent of Schools, with the entire community looking on, and cheering.

Her closest runner-up, was Eugenia Brodie, a 7th grader this year, and a very attractive girl. Lonetta Hess, a Freshman, was runner-up of Sharon Huddleston, 8th grader, who followed Eugenia. Jane Quinby, 8th grader was also honored by being one of the attendants, of the queen.
Royalty

Our carnival and all-school KING, was VERNON LEE VANDERWORK, 7th grader, and very handsome young man. Vernon, entirely enjoyed his honor of reining, at the carnival.

Vernon's close competition was, Bobby Osborn, 8th grader, who worked very hard for the honor which Vernon so closely won.

Richard Humburg, a Senior, obtained a good many votes, with James Reinert as his runner-up.

Although boys are supposed to scorn such stuff, according to them, everyone is sure that they enjoyed this honor every ounce as much as the girls.

The KING and QUEEN project was a very profitable as well as enjoyable affair, for the Juniors and Seniors, who were the sponsors of the project.

With very good weather, the Carnival was exceptionally well attended. From the Chili Supper and Masquerade at 6:30 P.M. until the royal kiss so ably tendered the Queen by his Majesty, the noise, the color, the aroma all told that everyone was having a wonderful time. Every booth was well attended, including Madame Felice "The Gypsy Palm-Reader." Our original hopes dollar-wise was almost doubled as the final gross take was almost four-hundred dollars.

The Case Of The Missing Heirs

The scene of this thrilling mystery is a gloomy room in lonely Castle Wentz high atop a rocky ledge in the Allegheny Mountains. Here, the heirs, of August Wentz are to gather to hear the reading of his will. All the heirs are to be present on March, Friday 13, at 12:00 p.m. in order to receive their inheritance. None of the six heirs is a relative. There is the cadaverous looking Mrs. Kite, housekeeper, Wentworth, butler, Louise Talbott, office girl, Perriot Preston, mystery writer, Mrs. Beeman, widow, and Graham, the lawyer. Graham, first to arrive, is puzzled to find Wentworth gone. Suddenly, finding the lights dim and hearing eerie sounds, the fireplace opens, the phantom appears, a hooded figure in black, with hands that burn with a deathly glow. The phantom strikes Graham with a heavy instrument and drags off his body. Next to arrive is the nervous and frightened Mrs. Beeman and her giggly and scatterbrained daughter Maybelle. Then come handsome Preston with Gwen, his pretty secretary, and likeable Bruiser, his bodyguard. Louise arrives next. With all the lurid happenings that follow it's a terrorized group. What causes the dimming of the lights and the weird sounds? What happened to Graham? Why the sneaking actions of the expressionless Mrs. Kite? Wentworth's body is found in a crumpled heap. The Phantom pounces on Louise and drags her away. Above all, who is the phantom? Preston can only guess that one of the heirs, in order to receive a larger share of the estate is trying to drive the rest of them away. Finally, Preston, aided by Bruiser, satisfactorily solves the case. All inherit their money and return home happy.

GIVEN APRIL 4, 1958 TOWNER, COLORADO
An Industrial Arts Department was added to Towner School this year. A building was added to the south side of the school building, which was completed in December. The instructor was Velton Davis. Class Trip

May 16, 1957, found the Towner Juniors and Seniors, on their annual trip again. They first went to Denver, then Cheyenne and Laramie, Wyoming, then Estes Park, and Canyon City, Colorado Springs and home. They went bowling, horse back riding, swimming, saw the State Penitentiary, and enjoyed the wonderful scenery. Mr. and Mrs. Wilbur Mead and Mrs. Schwerdfeger were our sponsors.
We have by a very odd coincidence in our school in Mr. Hawkins room, three sets of twins. The Henry twins, Merlyn and Merle, whose birthdays are March 16, Robert and Rodney Hopkins, whose birthdays are July 19, and Albert and Delbert Beaman, April 30th.

We wish to honor these students because they are twins, and are so near the same grades in school. Also these three sets of twins are all boys, and therefore maintain a very high average of identical twins for so small a community as Towner.
